

NON-ALLOWABLES

Before your possessions are packed and loaded, it is important that you understand which items cannot be shipped because they represent a hazard or are perishable.

Listed below are some common non-allowable items that you will need to address prior to your pack and load dates.

HAZARDOUS MATERIALS

(items that are flammable, corrosive or explosive)

Examples include:

Matches	Kerosene	Gasoline
Fireworks	Propane/Propane Tanks	Charcoal
Charcoal lighter	Lamp oils	Aerosols
Ammonia	Ammunition	Nail polish
Paints	Paint thinner	Motor oil
Fire extinguisher	Cleaning solvents	Fertilizer
Liquid bleach	Household batteries	Pesticides
Car batteries	Poisons (such as weed killer)	
Pool Chemicals	Chemistry sets	Darkroom chemicals

PERISHABLES

(food, plants or living things that may die or spoil in transit)

For shipments moving less than 150 miles and delivered within 24 hours of pick up, movers may agree to transport perishables that are properly packed and require no servicing in transit.

Examples include:

Frozen Foods	Refrigerated food
Plants	Open or half-used foods
Produce	Food without adequate preservation

You should empty your refrigerator(s) and freezer(s) and keep appliance doors open for at least 24 hours in advance of loading. This will allow appliances to dry out and prevent the growth of mold.
